DETAILED ACTION

1. Claims 1-12, 19-26 and 28 are pending in the instant application.

Response to Amendment

2. Applicants' Amendment and Response, submitted May 8, 2008, has been reviewed by the Examiner and entered of record in the file. Accordingly, claims 13-18 and 27 have been cancelled, claims 1, 7, 24-26 and 28 have been amended.

Claim Rejections - 35 USC § 112

3. Claims 1 and 25-27 previously rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) Claim 1 previously rejected under 35 U.S.C. 112, second paragraph, for omitting the structure of formula I from the claim. Applicants have amended the claim to add the formula, therefore the rejection has been obviated and is withdrawn.

(b) Claim 25 previously rejected as being indefinite. In view of Applicants' amendments, the rejection is withdrawn.

(c) Claim 26 previously rejected as being indefinite. In view of Applicants' amendments, the rejection is withdrawn.

(d) Claim 27 previously rejected as being an "improper product-use claim." Applicants have cancelled the claim, rendering the rejection moot.

Claim Rejections - 35 USC § 101

4. Claim 27 rejected under 35 U.S.C. as being a reach-through claim. Applicants have cancelled the claim, rendering the rejection moot.

Claim Rejections - 35 USC § 102

5. Claims 1-12 and 19-25 in part rejected under 35 U.S.C. 102(b) as being anticipated by Takemoto et al, EP 1253142 A1. In view of Applicants' persuasive arguments, the rejections are withdrawn.

Claim Objections

6. Claims 24-28 previously objected to under 37 CFR 1.75(c) as being in improper dependent form. In view of Applicants' amendments, the objections have been withdrawn.

REASONS FOR ALLOWANCE

7. In view of Applicant's amendatory changes and cancellations, claims 1-12, 19-26 and 28 are allowable over the prior art, as newly renumbered claims 1-21. The following is an examiner's statement of reasons for allowance:

This invention relates to novel thiazole-2-carboxamide derivatives, their pharmaceutical compositions, and their methods of use. The allowable compounds are limited to compounds according to formulae (I), (II) and (II-a). Certain thiazole compounds are known in the art as having pharmaceutical activity, however the aspect of preparing the instant claimed thiazole-2-carboxamides is novel and unobvious. The instant compounds were tested for thrombopoietic activity (please refer to inhibitory results, ED₅₀ values, etc. found in Table 1 of the specification on pages 230-231), which makes them useful as anti-coagulant agents for treating hemopathy,

for example. After a thorough search, the closest of prior art, EP 1253142 A1 to Takemoto, et al. was found to teach similar thiazoles. However the 'EP document fails to teach or render obvious the same instant claimed compounds, and does not fairly suggest methods of using the instant claimed compounds for treating hemopathy.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
